

YOUR SINGLE SOURCE FOR RAIN-TIGHT.

**MORE RAIN-TIGHT
IN STEEL AND ZINC.**

Steel 1/2" to 4"

Zinc 1/2" to 2"

For 12/2 to 8/3 PVC Jacketed MC Cable

For Connecting PVC Jacketed cable, simply strip back cable and unscrew the connecting nut. Push in the cable and tighten for a secure, raintight connection.

UL-Listed EMT concrete-tight and raintight steel and zinc fittings come completely assembled, with no extra seals to buy, stock or install. And, for faster installation, a split-type gland ring prevents the conduit from turning when tightening the hex nut.

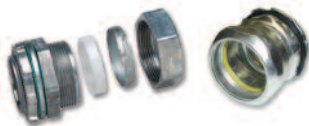

Call 203-377-5944 and learn how Bridgeport engineered the moisture out and the quality in.

Raintight Fittings

UL Listed raintight fittings in zinc, 1/2" to 2" sizes - and steel, 1/2" to 4" trade sizes.

Raintight Compression Connectors

Zinc Die Cast

Catalog Number	UPC Number	Trade Size	Unit Quantity	Standard Package
