

**Bridgeport's Mighty-Merge® Snap-in/Push-in Transition Coupling
Makes Installs Quick and Easy for Contractors**

Patented coupling is 'one fitting that does the work of three'

STRATFORD, Conn. (January 15, 2015) – Bridgeport Fittings' Mighty-Merge 280SPMB Snap-in/Push-in Transition Couplings save time and money for contractors with quick and easy installation. The couplings' patented design has a quick install snap-in end for AC/MC cables and flexible metal conduit and a labor-saving push-in end for EMT.

Bridgeport's zinc die cast couplings are ideal for transitioning fixture whips above a drop ceiling and for continuing the speed of MC down the wall to emergency lights. The couplings are cETLus Listed.

The Mighty-Merge Snap-in/Push-in Transition Coupling is part of Bridgeport's exclusive and innovative "Mighty-B"™ line of high-quality, high-performance products focused on getting a contractor's job "done fast, done right."

Bridgeport Fittings is a leading supplier of quality fittings to the industrial, commercial and residential channels of the electrical industry. Two-thirds of Bridgeport's product volume is manufactured in the U.S.
